

# OCEANSAT 2

## WORKSHOP

25 GIUGNO 2009

ASI

Viale Liegi, 26 ROMA

# AGENDA

9.30	Registrazione	
9.45	Benvenuto	Bianco
10.00	La missione OCEANSAT 2	De Cosmo
10.15	I prodotti ROSA di OCEANSAT 2	Vespe
10.30	OCM 2 e SCAT: sensori, dati e prodotti	Ananasso
10.45	Centro Nazionale Multimissione	Garramone
<b>11.00</b>	<b>coffee break</b>	
11.15	AO di ISRO	Ananasso
11.20	Application of OCEANSAT-2 data to study the CASE-2 waters in the North-Eastern Mediterranean sea (NEMO-C2W)	Pignatti
11.35	Application of satellite technology for characterizing seasonal behaviour of sea pigment concentration in the West Indian Ocean and analyzing its relationship with environmental parameters (STIOS)	Pignatti
11.50	Test cases for calibration and validation of OCM 2 images in coastal waters of Southern Italy	Trabace
12.10	Algal Blooming in Regional Eddies due to Air-Sea Transfers (ABREAST)	Barale
12.30	Electromagnetic modelling of sea surface scattering, wind scatterometer data inversion and ocean process studies.	Migliaccio
12.50	LakeWatch - Lake Water characterisation with optical remote sensing	Giardino
<b>13.10</b>	<b>Pausa pranzo</b>	
14.00	Conclusioni / tavola rotonda	
15.00	Fine del workshop
