

PhD Opportunities in Australia

LAUNCH YOUR SPACE CAREER IN AUSTRALIA!

Now Accepting PhD Scholarship Applications

SmartSat is a research powerhouse which brings together more than 100 international and national partners who have invested over \$190 million. Together with \$55 million Federal Government support, this represents a \$245 million research effort over seven years.

SmartSat invites applications for PhD scholarships (full or top up). Successful candidates will be enrolled with one of our university partners and will work on applied R&D projects which align with our research programs, missions, and/or industry need. SmartSat and its partners have collaborative arrangements with universities from a number of countries to enable co-supervision of doctoral studies by Australian and other universities.

Please visit smartsatcrc.com for more information on priority topic areas, eligibility, benefits, application process and deadlines.

If you would like additional information regarding this study opportunity, please contact us at info@smartsatcrc.com
