### Definitions

For the purposes of this Regulation, the following definitions apply:

- (1) 'research infrastructures' means facilities that provide resources and services for the research communities to conduct research and foster innovation in their fields, including the associated human resources, major equipment or sets of instruments; knowledge-related facilities such as collections, archives or scientific data infrastructures; computing systems, communication networks and any other infrastructure of a unique nature and open to external users, essential to achieve excellence in R&I; they may, where relevant, be used beyond research, for example for education or public services and they may be 'single sited', 'virtual' or 'distributed';
- (2) 'smart specialisation strategy' means the national or regional innovation strategies which set priorities in order to build competitive advantage by developing and matching R&I own strengths to business needs in order to address emerging opportunities and market developments in a coherent manner, while avoiding duplication and fragmentation of efforts, including those that take the form of, or are included in, a national or regional R&I strategic policy framework, and fulfilling the enabling condition set out in the relevant provisions of the Common Provisions Regulation for 2021-2027;
- (3) 'European Partnership' means an initiative, prepared with the early involvement of Member States and associated countries, where the Union together with private and/or public partners (such as industry, universities, research organisations, bodies with a public service mission at local, regional, national or international level or civil society organisations including foundations and NGOs) commit to jointly supporting the development and implementation of a programme of R&I activities, including those related to market, regulatory or policy uptake;

#### *Article 2*

#### **Definitions**

For the purposes of this Regulation, the following definitions apply:

- (9) 'access rights' means rights to use results or background under terms and conditions laid down in accordance with this Regulation;
- (10) 'background' means any data, know how or information whatever its form or nature, tangible or intangible, including any rights such as intellectual property rights, that is: (i) held by beneficiaries prior to their accession to a given action; and (ii) identified by the beneficiaries in a written agreement as needed for implementing the action or for exploiting its results;
- (11) 'dissemination' means the public disclosure of the results by appropriate means, other than resulting from protecting or exploiting the results, including by scientific publications in any medium;
- (12) 'exploitation' means the use of results in further R&I activities other than those covered by the action concerned, including among other things, commercial exploitation such as developing, creating, manufacturing and marketing a product or process, creating and providing a service, or in standardisation activities;
- (13) 'fair and reasonable conditions' means appropriate conditions, including possible financial terms or royalty-free conditions, taking into account the specific circumstances of the request for access, for example the actual or potential value of the results or background to which access is requested and/or the scope, duration or other characteristics of the exploitation envisaged;
