CSG Industry Days 2022 Edition

Save The Date: June 8th & 9th 2022

Industrial Operations & Maintenance Contracts

Dear Industrialist,

The 2022 CSG Industry Days organized in collaboration by CNES and ESA will take place on the 8th and 9th of June 2022 at Paris.

By registering for this event European Industry will receive information regarding the upcoming activities and operational opportunities to be carried out at the Centre Spatial Guyanais (CSG), also known as Europe's Spaceport in Kourou, French Guiana.

Presentations will focus on the industrial service contracts supporting CNES' operational and maintenance activities at the CSG Launch Range.

To foster the participation of European industry in the CSG Launch Range activities, companies will have the opportunity to schedule business-to-business meetings (B2B) via a virtual platform, which they may attend during the 2-day event either in person or virtually.

ESA introduction and CNES' operational and maintenance activities and tendering process presentations	Wednesday 8 th June 2022 morning
B2B meetings sessions	Wednesday 8 th June 2022 afternoon Thursday 9 th June 2022 morning Thursday 9 th June 2022 afternoon

Why Should You Participate?

- unprecedented access to information related to the CSG Launch Range from CNES and ESA, as well as the principal industrial actors of the CSG
- pre-arranged B2B meetings, face to face and virtual
- 2 days of networking opportunities and consortium building with other participants
- the simplest, most effective method to meet other parties interested in the CSG and to become an actor in the CSG ecosystem
