### FOSTERING MULTIDISCIPLINARY RESEARCH FOR THE FUTURE OF SPACE

Following Andrea  
Sommariva's footsteps

Annual Event of Space  
Economy Evolution (SEE)  
Lab

Auditorium Grande  
Via Sarfatti, 10

10.00 AM • 13.00 PM CET

The SEE Lab Annual Event 2022 is aimed at commemorating the great contribution of Andrea Sommariva's research activities on space economy and to launch the Laboratory future program, welcoming its new Director. The SEE Lab was born to provide space-oriented businesses, non-space industries, financial operators and public actors with the in-depth understanding and strategic insights necessary to gauge the opportunities presented by the space economy. Carrying forward the legacy of Giovanni Bignami and Andrea Sommariva, the Laboratory can now leverage on a robust interdisciplinary research approach and a strong network of partners to support space economy players to face the future industry-specific and global challenges. Drawing on over the speakers' experiences, the Annual Event aims to highlight the relevance of multidisciplinary research for the future of space by supporting the business and policy strategies of space industries, non-space industries and public institutions.
